PROJECT EXPERIENCE

AuraCare Lite | Independent Product & Workflow Project

- Coordinated planning and development activities for a publicly deployed healthcare-focused web application supporting epilepsy management workflows and emergency accessibility.
- Organized feature planning, workflow structures, and documentation using Google Workspace, Notion, and AI-assisted productivity tools.
- Supported deployment and iterative refinement through Vercel while maintaining project organization and operational planning materials.

Grow with Google Project Collaboration

- Served as team lead and primary presenter for a collaborative Google Project Management project, coordinating communication, organizing presentation content, and guiding workflow alignment across team activities.
- Designed and delivered visual presentation materials using Google Slides and Notion, simplifying project initiation concepts into clear, audience-friendly information.

Community Carnival Fundraiser Project

- Supported planning and operational coordination for a community fundraising carnival benefiting MUST Ministries, contributing to scheduling, stakeholder outreach, donation coordination, and event logistics.
- Assisted with project planning documentation including work breakdown structures (WBS), Gantt chart coordination, and communication planning activities.

WORK EXPERIENCE

Cracker Barrel

Lithia Springs, GA

Project Coordinator

Sept 2022- Feb 2025

National chain with 660+ locations offering full-service dining, known for hospitality-driven operations.

- Diagnosed workflow gaps across HR and operations initiatives and implemented scheduling improvements that reduced recurring delays by 24%.
- Redesigned onboarding workflows and documentation processes, shortening new-hire completion timelines and improving early productivity.
- Coordinated 5–7 concurrent operational projects by aligning timelines, resources, deliverables, and stakeholder communication.
- Facilitated recurring team and stakeholder meetings to track project progress, resolve blockers, and maintain accountability across initiatives.
- Mentored team members on reporting standards, workflow documentation, and communication processes to improve operational consistency.

Assurant

Kennesaw, GA

Project Specialist

Apr 2021-Apr 2022

Global insurance and technology provider focused on risk management and workforce operations.

- Introduced a structured project tracking dashboard to monitor HR initiatives, reducing missed deadlines and improving reporting visibility for leadership.
- Developed executive-ready reporting materials that streamlined decision-making processes and reduced operational rework.
- Supported HR technology implementation projects by coordinating milestones, maintaining project documentation, and tracking deliverables.
- Delivered onboarding and systems training for new hires, improving adoption and confidence in HRIS platforms and operational procedures.

1000 Degrees

Kennesaw, GA

Operations Manager

Mar 2019- Mar 2021

Franchise-based restaurant concept offering customizable pizza and salad. Operates across multiple U.S. locations.

- Identified inefficiencies in labor scheduling and implemented a revised rotation system that improved shift coverage and operational efficiency.
- Overhauled onboarding documentation and training workflows, reducing early-stage operational errors and improving employee readiness.
- Managed payroll processing and operational compliance across recurring pay cycles with high accuracy.
- Coached and developed team members to improve service standards, communication, and operational consistency.

Planet Fitness

Mableton, GA

Team Lead

Aug 2017- Aug 2019

Fitness clubs in the U.S., with 2,000+ locations. Focused on affordable fitness experiences and member retention.

- Led shift coordination meetings and training sessions to improve team communication, workflow organization, and operational performance.
- Maintained safety and compliance standards across operational activities, achieving strong performance evaluation results.
- Directed shift assignments and task prioritization to improve workflow efficiency and customer response times.
- Supported implementation of new scheduling and member tracking systems through staff training and operational monitoring.

EDUCATION

Associate of Science in Business Management

Chattahoochee Technical College | Marietta, GA
